

Signal, Sound & Safety

Daylight Signal Shapes

These folding metal shapes are traditionally made to be strong and easily handled. They have swivel eyes top and bottom and a tough black polyester coating that resists scratching and flaking. The small sizes are for vessel up to 20 metres and the larger sizes are made to the DOT specification for merchant ships.

Part No.	Type	Size	Weight kg
3340/00/375	Ball	15" 375mm	2.0
3340/00/600	Ball	24" 600mm	4.5

Stem Fenders

We are able to supply stem fenders to suit any vessel. Please send sketch with dimensions for quotation. We can supply in manila, coir or polypropylene ropes.

Part No. 2062

Rope Fendering

Made to order in natural fibre or synthetic ropes with stainless steel or galvanised core. Available in diameters from 36mm to 112mm.

Jacobs Ladders

Constructed from round hardwood rungs and plaited polypropylene rope. The rungs are spaced one foot (300mm) apart and the ladders are made to special order to any length from four foot upwards, and priced by the foot. Delivery is usually 2-4 weeks.

Part No. 0927

We are also able to supply ladders with wire instead of rope and steel rungs instead of wood.
